Berlin, Germany · EU work authorized

antonioruizdeveloper.com

LinkedIn · GitHub

Full-stack developer with **3+ years** of hands-on experience in React, TypeScript and Node.js. Currently working as a **paramedic in Berlin** while shipping production software — including a B2B platform for ambulance operations built end to end (web, mobile, API). Seeking junior–mid developer roles, contracts or freelance work in healthtech, B2B SaaS and operations software. Remote, hybrid or on-site in the EU.

SKILLS

Production

React · TypeScript · JavaScript · Node.js · Express · REST · MongoDB · JWT · React Native · Expo · HTML · CSS · Git

Delivery & quality

GitHub Actions · Docker · Automated tests · Playwright · Code review · Multi-tenant patterns

Dev workflow

Cursor · Claude · Codex · MCPs · Agent skills — always reviewed before merge

LANGUAGES

Spanish	Native
English	Fluent
German	B1–B2

EDUCATION

Full-Stack Web Development 2023
CareerFoundry · Berlin

Emergency Medical Technician 2015–2017
Natanael Formación · Murcia, Spain

EARLIER EXPERIENCE

- **Driving instructor** (self-employed & schools) · UK / Spain · 2008–2015
- **Restaurant manager** · Leeds, UK · 2013–2015

SELECTED PROJECT

Ambulancias GoRuiz 2023 – present · Production

Sole developer · B2B platform for ambulance companies (private)

- Built admin web app, worker web portal and **React Native (Expo)** app for field staff — scheduling, documents, messaging.
- Designed REST API with **JWT auth**, role-based access and **multi-tenant** company scoping; multilingual UI (ES / DE / EN).
- Delivery pipeline with **Git**, **GitHub Actions** and **Docker** for CI; focus on maintainable code for a small team.

PROFESSIONAL EXPERIENCE

Paramedic 2017 – present

Ambulance services · Berlin, Germany & Murcia, Spain

- Patient assessment, emergency care and transport under time pressure; clear communication with hospital teams and non-clinical staff.
- Applied protocols consistently in high-stakes environments — transferable to reliable software delivery and incident handling.
- Developed **Ambulancias GoRuiz** alongside clinical work; deep domain knowledge in ambulance operations and scheduling pain points.

ADDITIONAL DEVELOPMENT WORK

Product Manager Demo project

React · TypeScript · REST API · github.com/Brocal82

- Full-stack CRUD app with typed frontend and Node/Express backend; deployed demo on Vercel.

Earlier learning projects (MyFlix, chat app) and code samples on GitHub.
